

DATA LOGGER (Performance Monitoring Device)

System Features:

- A) Records the following parameters;
 - i.) **Air Volume** (m³/hr /cfm)
 - ii.) **Air Velocity** (0-30 m/s/ fpm)
 - iii.) **Temperature**:
(Standard 0-50°C)/(High Temp up to 250°C)
 - iv.) **Differential Pressure** :
(0-2500Pa / mm w.g/ in w.g)
- B) **Data Logger** up to 65,000 Data
- C) **IP65 Double Door Enclosure**

Output Display Features:

- a.) HMI Display & LCD Touch Screen
- b.) Graph with Real-time data
- c.) USB Port-Transferrable data
- d.) Advanced Option: IOT Interface

**“ WE SIMPLIFY YOUR NEEDS
IN A SMARTER WAY ”**

Advantages

- a.) **Quick & Easy**; Continuous Display & Store Real-Time Data (4 parameters)
- b.) **Increase Efficiency & Reduce Workload**
- c.) **Associated Hazard Reduction**- Remote Panel installed at accessible area.
- d.) **Instant Data Download**- USB Port Ready
- e.) **Enhance Consistency** with Digital Data Collection (**Paperless**)
